## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-15, 24, and 28-33 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not suggest assigning priority levels for multiple audio sources as a function of a source of first and second audio signals and a nature of an output device for audibly outputting the first and second audio signals. Kanamori et al teach prioritizing first and second audio signals in a cellular phone, the first and second audio signals being voice and music. While Tran et al do teach varying volume levels in an amplifier based on the type of speaker (the nature of an output device), the reference does not teach assigning priority levels of multiple audio sources based on the nature of an output device. Furthermore, there was no motivation to combine Kanamori et al and Tran et al as they were in different fields of endeavors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
